(1) Membership totals are given as of June 30 of each year (until the fiscal year end changed to May 31 in 1997) Totals exclude Junior Tournament Players and tournament members. (2) Figures enclosed in parentheses are deficits. (3) The 1980 fund balance reflects an accounting change; namely, the reserving of assets to cover the long-term liability to life and sustaining members. (4) The 1982 fund balance reflects a further accounting change, a write-off of \$432,214 in a "goodwill" asset that had been created to balance the liability owed life members. (5) The 1990 fund balance reflects the addition of \$300,000 to the Life Members assets and \$596,210 to the liability, as a result of a reappraisal. (6) Note that because of the change in the fiscal year, the 1997 figures onward are from May 31 (7) Net assets for the year ended May 31, 2000 were restated during the 2001 audit by Nugent & Haeussler, P.C. (8) Net assets for the year ended May 31, 2001 were restated during the 2001 audit by Nugent & Haeussler, P.C. (9) The 2006 fund balance was changed from (\$118,383) to (186,625) as a result of a prior year adjustment made by our auditors Burk, Pearlman, Nebbin & Hudgins.

CORRESPONDENCE CHESS

A great many players are active in tournaments run and rated by US Chess. Most popular is the annual Golden Knights Championship, a three-stage event, although US Chess offers several other options. You'll find advertisements for these events in every issue of Chess Life. Many over-the-board players find that correspondence chess improves their play, and correspondence also appeals to those who for various reasons cannot play in over-the-board (OTB) tournaments. Correspondence chess is also played for its own value. There is no limit to the number of games one can have going at once. For further information, contact the Correspondence Chess Dept. at US Chess, P.O. Box 775308, St. Louis, Missouri 63177. The correspondence rating system is similar to the OTB system, and a written explanation is free on request (a stamped, self-addressed envelope is appreciated). Players who earn ratings over 2000 and have 25 or more games rated are issued special certificates. If you qualify and haven't received one, please write to us. International correspondence chess titles are awarded by the International Correspondence Chess Federation, an affiliate of FIDE. Titles are awarded for outstanding performance in ICCF-sponsored events.

INTERNATIONAL TITLISTS

FIDE awards titles for outstanding achievement in three areas of chess competition: Over-the-board play, correspondence play, and composition.

OVER-THE-BOARD PLAY

FIDE uses a complex but flexible formula to determine eligibility for over-the-board (OTB) titles. Basically the average rating of a qualifying event is used to determine how many points a titled player — a grandmaster for example — would be expected to make. Players who score that number of points achieve a “norm” toward that title. To earn a title, a player must make several such norms and fulfill other requirements, such as maintaining a minimum rating. The international arbiter title is awarded to tournament directors on the basis of applications submitted to FIDE.

Titles for composers of chess problems and endgame studies are overseen by FIDE's Permanent Commission for

Chess Composition. The commission periodically issues albums of composers' best pieces. A composer receives points for each problem and endgame chosen for an album. Twenty-five points are needed for an international master title, 70 for a grandmaster title.

US CHESS TITLES

OVER-THE-BOARD PLAY

The Tournament Life section of *Chess Life* lists hundreds of tournaments each month in varying formats—standard chess, quick chess, blitz chess—something for everyone. If you're new to competitive chess, be sure to see "Information for Organizers, TDs, and Affiliates" and "Information for Players" online at new.uschess.org/information-new-members.

Over-the-board (OTB) ratings are calculated by computer using a complex formula. An explanation of the system is available through a link on the US Chess website. Players who earn OTB ratings over 2200 are issued certificates to recognize their achievement. If you qualify for a certificate but have not received one, please write us. Here are the ratings classes:

MASTERS EMERITI

THE MASTER EMERITUS title is a special honor awarded to players, now for the most part inactive, who led distinguished chess careers before the institution of the US Chess rating system. Current ratings of masters emeriti are not published if they are below 2200, in which case 2200 is the rating used for pairing and reporting purposes.
